EXAMINER'S AMENDMENT

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 2/12/2010, Mr. Myers-Payne requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 19-0089 the required fee of \$130.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Cancel Claims 4, 10-11, 13-32.

Claim 3. A method for determining an increased risk of myocardial infarction in humans, which comprises detecting an A/A homozygous genotype at nucleotide 80 in the nucleotide sequence of exon 3 of the LT- α gene shown in SEQ ID NO: 3, wherein the presence of the A/A homozygous genotype is indicative of increased risk of myocardial infarction.

3. The following is an examiner's statement of reasons for allowance:

Claims 3, 7-9 are allowable. Claims 1-2, 4-6, and 10-32 have been cancelled.

Claims 3, 7-9 are free of the prior art of record because the prior art of record does not teach nor suggest a method of determining an increased risk of myocardial infarction by detection of the A homozygous genotype at nucleotide 80 of SEQ ID NO.

3.

The 35 USC 112/Scope of Enablement rejection set forth in the office action of 12/10/2009 is moot based upon amendments to the claims.

Art Unit: 1634

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
